

## MRSD Project Course Wiki Familiarization

### Objective

The objective of this assignment is for students to become familiar with the contents of the MRSD Project Course Wiki and gain ideas on how they can improve it.

### Guidelines

- This is an individual assignment. Please submit the answers as a pdf document.
- Name your file as follows: TeamA\_andrewID\_Task1.pdf (replace “A” with your own team letter and “andrewID” with your own Andrew ID).
- Please send any questions to the course gmail.

### Content

- Look on the Wiki (<https://roboticsknowledgebase.com>) for a solution or aid for a problem you or your team are currently having. Describe the problem and what you searched for on the Wiki. If there is a solution, describe and cite it (minimum 2 sentences).
- Identify at least one topic that is missing or needs improvement and that you would consider adding to or improving on the Wiki. This can be related to #1 if you didn't find a solution/aid. Identify the topic with a brief description (1 paragraph, minimum 4 sentences); you don't have to add the topic to the Wiki as part of this assignment.
- Identify and describe in a few sentences (minimum 4) one way in addition to #2 in which the Wiki can be improved. This could be another topic, the layout, the organization, the concept, the ease of navigation, etc.

Wiki Familiarization Element	Points
1. Describe problem and solution (if present)	1.5
2. Describe missing topic or one that needs improvement	2.0
3. Describe additional improvement	1.5
<b>Total:</b>	<b>5</b>
